

THE CLEVELAND INDUSTRIAL ARCHAEOLOGIST

(ISSN 0306-3259)

Number 1 (1974)		Pages
Stokesley Mill.	J K Harrison	1 - 8
Bessemer converter tuyeres at Eston.	D M Tomlin	9 - 14
Cornwall - A County rich in relics of past industry.	A E & C D Shayler	15 - 19

Number 2 (1975) SYMPOSIUM ON THE ALUM INDUSTRY		Pages
A brief history of the alum industry in North Yorkshire 1600-1875	R L Pickles	1 - 10
Technical aspects of alum-making.	J K Almond	11 - 20
The alum workers.	B J D Harrison	21 - 26
Excavation at the Boulby Alum Works.	S K Chapman	27 - 34
Discussion at meeting held on 24 March 1974		35 - 40

Number 3 (1975)		Pages
'The bridge across the glen' at Saltburn.	J K Harrison et al	1 - 12
Jet mining in North East Yorkshire.	J S Owen	13 - 22
The North Skelton Ironstone Mine.	P Tuffs	23 - 30
Thomas-Gilchrist basic-steelmaking experiments in Cleveland, and Mr J R Skinner, chemist with Bolckow, Vaughan & Co. Ltd	J K Almond	31 - 34
The English post windmill.	A E & C D Shayler	35 - 44
Number 4 (1975) THE EARLY CHEMICAL INDUSTRY OF THE NORTH EAST		Pages
A synoptic view of the early chemical industry of the North East.	W A Campbell	1 - 6
The early chemical works of Teesside.	D M Tomlin	7 - 12
The nineteenth century salt and alkali industry of Cleveland.	C McNab	13 - 18
From Tyne to Tees.	W A Campbell	19 - 22
Billingham - the early years of a large new works.	G G Robson	23 - 30
Discussion at meeting held on 23 March 1975		31 - 33

Number 5 (1976)		Pages
Whinstone mining & quarrying in N E Yorkshire.	J S Owen	1 - 10
Philip Webb and the Bell family.	J Brandon-Jones	11 - 16
Philip Webb's industrial buildings for Bell Bros. in their local context.	J K Harrison	17 - 20
The Kilton Ironstone Mine	P Tuffs	21 - 33
Sir John's Mine, Tynehead, Garrigill.	H L Beadle	35 - 41

Number 6 (1976) THE HISTORY OF STEAM POWER IN THE NORTH EAST		Pages
From mining to the stars: or how national pride led to a fundamental theory.	C A Hempstead	1 - 10
Thomas Hawksley and the steam powered water pumping stations of the Sunderland and South Shields Water Company.	Dr S M Linsley	11 - 18
A history of early blowing engines in the N E of England and of the development of the 'Cleveland' blowing engine.	J K Harrison	19 - 34
Steam utilisation in electric power generation: A survey of historical development in the North East of England.	R P Kent	35 - 40
Discussion at meeting held on 21 March 1976		41 - 44

Number 7 (1977)		Pages
The Esk Valley Ironstone Mine: Part 1, documented history	J S Owen	1 - 10
The Esk Valley Ironstone Mine: Part 2, some site details.	J S Owen and P Tuffs	11 - 15
Lady's Rake Lead Mine.	H L Beadle	17 - 23
The Waste Heat Company	D W Pattenden	25 - 36
The bore holes and salt works of the Tees Estuary	D M Tomlin	37 - 46
The development of the titanium pigment industry on Teesside.	F R Williams	47 - 52

Number 8 (1978) SKINNINGROVE AND ITS NEIGHBOURHOOD		Pages
Pre-1865 ironstone mining development at Skinningrove.	J S Owen	1 - 8
Railways around Skinningrove.	N G Lillywhite	9 - 14
The struggle for existence of a small works in the iron and steel industry.	W G B Bradley	15 - 24
Skinningrove: village and people in the early 1879s	B J D Harrison	25 - 30
Addendum : Mr. S. F. Okey's account of the start of ironstone mining.		31 - 32
Discussion at meeting held on 20 March 1977.		33 - 38

Number 9 (1978)		Pages
Description of the Waddle fan, Lumpsey Ironstone Mine.	S A Chapman	1 - 5
The Esk Valley cottages.	notes by J S Owen; drawings by J B Riley	7 - 10
Lingdale Ironstone Mine	P Tuffs	11 - 22
The Cleveland Salt Company	D M Tomlin	23 - 30
Number 10 (1979) THE BRIDGES OVER THE RIVER TEES		Pages
The shape of bridges and the form of theory.	C A Hempstead	1 - 15
The bridges of Yarm.	D H Pearce	17 - 21
Stockton's road bridges	D M Tomlin	23 - 25
The Transporter Bridge, Middlesbrough	M Stockwell	27 - 31
Newport Bridge, Middlesbrough.	M Stockwell	33 - 37
The arch water bridge of Stockton.	C A Hempstead	39 - 40
The A19 road bridge.	C King	41 - 45

Number 11 (1979)		Pages
The river bridges on the Middlesbrough Branch of the Stockton and Darlington Railway.	Charles McNab	1 - 6
The genesis of the transporter bridge.	D W Pattenden	7 - 11
Esk Valley Ironstone Mine: Part 3, Excavations completed.	J S Owen	13 - 24
Ventilating furnace at Ayton Ironstone Mine.	S A Chapman	25 - 26
The Newport oval iron blast furnace.	A T Ledgard	27 - 29

Number 12 (1980) INDUSTRIAL ASPECTS OF GUISBOROUGH		Pages
The impact of industrialisation on the town of Guisborough.	B J D Harrison	1 - 3
The early years of alum making in Guisborough.	Mrs Anne Harrison	5 - 9
Eighteenth century corn milling venture in Guisborough.	J K Harrison	11 - 18
The Cleveland Railway.	Miss Grace Dixon	19 - 22
The Blakett Hutton Foundry.	J McConnell	23 - 27
Discussion at meeting held on 25 March 1979.		29 - 30

Number 13 (1981)		Pages
Teesdale Mining Company, 1821-1842	H L Beadle	1 - 14
The ventilating machines of M Guibal in Cleveland.	S A Chapman	15 - 21
Scoria Blocks.	C H Morris	23 - 32
Warren Moor Ironstone Mine, Kildale.	J S Owen	33 – 53

Number 14 (1982)		Pages
Industrial archaeological sites in the County of Cleveland	prepared by members of the Society	28 pages

Number 15 (1983) SHIPS AND SHIPBUILDING ON THE TEES		Pages
History of the River Tees shipyards.	W Harrison MBE	1 - 10
The SS 'De Brus '- the first iron steamship to be built in Middlesbrough.	D W Pattenden	11 - 19
Developments in the theory of ship hull design at mid-19th century.	C A Hempstead	21 - 30
Lonsdale Ironstone Mine, Kildale.	J S Owen	31 - 48
Ships and shipbuilding - extracts from discussion held in March 1981.		49

Number 16 (1984) BRICKS AND MORTAR		Pages
Bricks and early Middlesbrough brickmakers.	D W Pattenden	1 – 12
The Carrs Tilery, Margrove Park.	J K Harrison	13 – 28
George Lambert, brickmaker.	Mrs Marie Lambert	29 – 33
160 years of cement manufacture in Cleveland.	C H Morris	35 – 54
Extracts from discussion held on 28 March 1982.		55
Bricks and Mortar: some sources of information.		56

Number 17 (1985)		Pages
Early electricity supplies on Teesside.	D W Pattenden	1 – 20
Disappearing railway stations: the Middlesbrough – Guisborough Railway.	Miss Grace Dixon	21 – 30
Leeds Corporation, and whinstone extraction from Cliff Rigg, Great Ayton, 1869-1883	R Pepper	31 – 46
The main winder at Kilton Mine.	S A Chapman	47 – 49
A note on cement manufacture in Cleveland, at ICI Casebourne works.	D J M Rowe	51 – 54
Whitby and Robin Hood's Bay Steam Packet Company 1853-1867.	T M Quinn	55 – 68

Number 18 (1986) MIDDLESBROUGH DOCK AND RUTWAYS		Pages
The history of Middlesbrough Dock.	D W Pattenden	1 – 22
Rutways before railways on the Yorkshire coast, with details of twelve sites between Saltburn and Scarborough.	J S Owen	23 – 32
Number 19 (1987 – 1988) THE WATER IN YOUR TAP: THE DEVELOPMENT OF LOCAL SUPPLIES		Pages
Guisborough's water supply: a century of development.	Miss Grace Dixon	1 – 14
Water-borne disease in nineteenth century Cleveland.	G S Stout	15 – 20
The history of water supply	J F Prentice	21 – 30
Discussion on 'The water in your tap' at Symposium 16 March 1986		31 – 34
Notes on Stockton and Middlesbrough water supplies.	J K Almond	35 – 36
Liverton Ironstone Mine: A history.	S A Chapman	37 – 42
Number 20 (1990)		Pages
The Stockton and Darlington Railway booking office.	R Brunner-Ellis	1 - 7

Number 20 (1990)		Pages
Notes on Ironmaking in Cleveland, 1945-1951.	K C Sharp	9 - 16
Reminiscences of Cleveland iron and steel industry, edited from an evening's discussion meeting).	M A Raisbeck, A Oliver, and R Walters	17 - 30
Dorman Long and Company Ltd. 1889 - 1967: notes towards a history.	I C Malcolm	31 - 57
CIAS issues 1-20 (1974-1990) chronological list of contents and alphabetical list of authors		I – IX

Number 21 (1992)		Pages
Wiregill Lead Mine in Teesdale: an attempt to revive mining and to continue to operate after the London Lead Company gave the lease in 1902.	H L Beadle	1 - 24
The Skelton Ironstone Mines of Messrs Bell Brothers in Cleveland.	S A Chapman	25 - 68

Number 22 (1994)		Pages
The ironstone calcining kilns in Scugdale, Swainby.	Mrs C B Cook & J S Owen	1 – 11

Number 22 (1994)		Pages
Early water supplies in Ormesby.	D W Pattenden	13 – 19
A historical outline of magnesium production from seawater at Hartlepool.	R M Evans	21 – 23
Chaloner (Guisborough) ironstone mine 1872-1879.	R Pepper	25 – 38
Walker's Pit in Newtondale.	J S Owen	39 – 46
Number 23 (1996)		Pages
The Whitecliffe Mines.	S A Chapman	1 – 43
Site update of Skelton Park Pit (The CIA No. 21).	S A Chapman	43 – 48
Number 24 (1997)		Pages
Industrial Archaeology in Cleveland: the first 30 years.	J K Harrison	1 – 11
The North-Yorkshire alum industry: a technical analysis of the processes used	A E Rout	13 – 55

Number 25 (1998)		Pages
The identification, commercial evaluation and initial exploitation of alum shale deposits in the British Isles.	A E Rout	1 – 17
Roseberry Mine tramway: thoughts concerning details at the incline head.	J S Owen & R Pepper	18 – 20
The other Warden Law haulage engine house (A surviving structure from the Seaham and Rainton Railway).	S A Chapman	21 – 28
Hydraulic machinery at Hutton Home Farm, near Guisborough.	J K Harrison	29 – 42
Number 26 (2000)		Pages
Evidence of the alum industry on the foreshore at Ravenscar	D Green	3 – 11
Sir Joseph Bank's account of alum making at Kettlewell, North Yorkshire.	C E Thornton	13 – 18
A medieval bloomery at Tarn Hole in Bilsdale in the North York Moors: A re-assessment of an excavation of the 1970s	J K Harrison	19 – 34
Hydroelectricity generation in the Yorkshire Dales.	T T Hay	35 – 53

Number 27 (2002)		Pages
A matter of topography, geology and land ownership: Fredrick Greenwood's Royalty (Eston Mines) 1853-1870.	R Pepper	3 - 22
The Blakett Hutton Cleveland Steel foundry, Guisborough: the final years.	J McConnell	23 - 26
The Eston blacksmith's workshop and cottage.	Deborah Walsh	27 - 32
Steelfounding in north-east England: an inside view.	A Scott	33 - 46
Number 28 (2003)		Pages
Thomas Allison's geological excursions during the 1850s: principally in the North York Moors.	J K Almond	3 - 25
Ironstone mining in Scugdale near Swanby, west of Stokesley	Carol Cook	27 - 42
Ayresome Ironworks, Middlesbrough, and Klenshyttan Ironworks, Sweden.	J K Harrison	43 - 54
Views of the Blakett Hutton Foundary: Photographs by Dennis Wompra .	Captions by A M Burgess	55 - 63

Number 29 (2004)		Pages
Why Stockton-on-Tees did not become a Newcastle, nor Lemington-on-Tyne a Middlesbrough.	J K Almond	3 - 25
The Middleton Ironworks: Survey of the Blowing Engine House	Carol Cook	27 - 42
Newsletters of the Teesside Industrial Archaeology Group and of the Cleveland Industrial Archaeology Society.	J K Harrison	43 - 54
Number 30 (2005)		Pages
Sir George Colebrook's Attempted Alum Monopoly and the Great Ayton Alum Works	Ian Pearce	3 - 14
Ayton Banks Alum Works	Robert H de Wardt & David Taylor	15 - 27
Boulby Alum Works Tunnel Revisited.	Charles H Morris & Simon Whitlock	29 - 45
A Jet Mine in Chapel Wood, Ingleby.	Peter F Ryder & Ernie Shield	47 - 50
A 1900 Steam-driven Overhead Travelling Crane and a circa 1900 12-foot Diameter Faceplate Lathe.	D Whitfield	51 - 70

Number 31 (2006)		Pages
Seaton Carew Ironworks: John Henry Proud's reminiscences in the early 20th Century with commentaries and notes.	John Henderson Proud & J K Almond	3 - 47
Walkers Detaching Hook.	Tony & Cath Lynn	49 - 56
Number 32 (2008)		Pages
The Wooden Bridge over the River Tees at Sockburn, 1838-c1890.	D Whitfield	3 - 13
William Jones and the first Chemical Factory in Middlesbrough.	I Pearce	15 - 30
Tees Bridge Watch 1998-2007.	C H Morris	31 - 52
Number 33 (2012)		Pages
Blast Furnaces at Redcar 1870 - 2010	C H Morris	1 - 29
A Visitor's Guide to the Alum Works.	S A Chapman	31 - 42
Geological background to the North Yorkshire Alum Industry	D C Goldring	43 - 65
Seaton Carew Ironworks: Scenes in the 1920s and 1930s.	J K Almond	67 - 86
Number 34 (2013)		Pages
Thomas & William Whitwell and the Thornaby Iron Works	A Bettaney	1 - 54

Number 34 (2013)		Pages
CIAS Publications Indices		56 – 64
Number 35 (2015)		Pages
Last traces of the Alum Works at Saltburn	C H Morris	3 - 18
Exploited ironstone resources of Cleveland: an overview with the emphasis on geological background	D Goldring	19 – 55
Number 36 (2016)		Pages
Zinc and Sulphuric Acid Works at Seaton Snook	A Bettney	3 – 76
Industrial Sites in the Cleveland Area: supplementary list 1		77 – 84
Number 37 (2017)		Pages
Wrought Iron, Steel, or Hybrid – the decisions facing Cleveland’s Ironmasters in the second half of the nineteenth century	R Widdowson	3-54
Industrial Sites in the Cleveland Area: supplementary list 2.		55-68
Number 38 (2018)		Pages
Upleatham Ironstone Mines, Hauling House Excavation at East Winning 2011	S A Chapman	3-18

Number 38 (2018)		Pages
The First Stockton Ironworks	A Bettenev	19-34
Memories of Cargo Fleet Steel and Iron Works in the 1950's	M R Graham	35-42
Engineering geology applied to construction projects at Redcar Iron Works in the 1970s	D.C. Goldring and D.A. Greenwood	43-55

Number 39 (2019)		Pages
Corn Mills in the north Stockton-on-Tees area: a Historical Gazetteer.	A Bettenev	3 - 61
In situ underground remains in UK mines: Part 1 Hydraulic machinery in the Sir Francis Level, Gunnerside Gill, Swaledale	C Twigg	63 - 68

Number 40 (2020)		Pages
A new interpretation of the alleged alum works at Grosmont	Peter Appleton	3 - 11
Nesham and Welch Ironfounders and Engineers of Portrack Lane Iron Works, Stockton-on-Tees	A Bettenev	13 - 36
Report of Explosion of boilers at the Redcar Ironworks	A Bettenev	37 - 58

Number 41 (2023)		Pages
Excavations at the North Shore Pottery, Stockton-on-Tees	Richard Annis	5 - 15
Sea Walls Around Greatham Creek	Ian Macdonald and Alan Bettenev	17 - 27
The Stockton Stone and Concrete Company	Alan Bettenev	29 - 68
The Wilton Estate in Teesside industrial history, Part I: During private ownership	Elizabeth C Marsh	69 - 93
Number 42 (2024)		Pages
The Cleveland Industrial Archaeology Society at 50	Elizabeth C Marsh	5 - 14
The History of the Titanium Dioxide Industry on Teesside	Anthony Griffin	15 - 50
The Grinkle Ironstone Mine Fanhouse	Simon Chapman	51 - 59
Potash Extraction from Blast Furnace Flue Dust in Northeast England	F W Smith	60 - 67
Woodsmith Mine Tunnel	F W Smith	68-73
Egton Brick And Tile Works	Elizabeth C Marsh	74-104
